

PostgreSQL DBA

Our client is a powerful all-in-one email service provider that not only enables customers to send transactional and marketing email to their contacts but also better understand them, email after email. The intuitive tools deliver results for both marketing and technology-focused emailers as they give senders the right amount of analytics to get the most value from each campaign and to reach each inbox. They are now looking for a skilled DBA to join their growing team.

YOUR ROLE:

Configuration, optimisation, maintenance of big **PostgreSQL clusters**;
Optimisation and advice on general software, hardware and DB architecture;
Writing advanced queries or query scripts;
Help on backup strategy and implementation;

YOUR SKILLS:

Experience in Database Administration with PostgreSQL;
Experience in a high volume / high performance DB environment;
A must have technologies: **Linux (Debian), PostgreSQL, MySQL, Ansible, Git, AWS or GCP**;
Nice to have technologies: **Cassandra, PL/pgSQL, PgBouncer, Kafka, Elasticsearch**;
Excellent knowledge of English, both oral and written;
Good knowledge of French will be considered an advantage;
Self-starter and ability to work independently

WHAT WE OFFER:

An attractive remuneration;
Exclusive discounts & offers;
Additional health insurance and other social benefits;
Constant and extensive performance improvement programs;
Excellent business environment and a friendly atmosphere;
Open-minded management team promoting innovation, personal and professional development;
Diverse team from around the globe;
Home office - 30%
Permanent employment in Sofia, Bulgaria
